This years recipient is Joy Gardner. A woman who has dedicated her life to helping others and expecting nothing in return. She is a Mother of three amazing children, an advocate to children in foster care, as well as, a volunteer Firefighter, and EMT. Joy began the fight of her life when she was diagnosed with Stage 4 Metastatic Breast Cancer. She has fought and fought hard. She has an unbreakable spirit which she has proven over and over again when the cancer just kept coming back affecting her lungs and bones. The chemo has become toxic to her body and she is now a patient of Catskill Area Hospice. Her loving husband is out of work with FMLA as his paid leave has been exhausted. Joy has lived a life of service to others and now it is her turn to be served. Her wish is for a supply of propane to keep her family warm and fed this winter. Our wish is much greater. Please help us in supporting this family.
